tasted sin, and knew it in their fall. Man is chanwhat the first hearts were. Beauty is blemished .-Love is debased. Sorrow and tears are in the world's be a symbol forever of the primal love. And this is yet in the desert of sin .- Rev. Dr. Bushnell.

Southern Recorder.

"If any body wants" to subscribe to a paper edited by a d—d fool, we would refer him to the Southern Recorder .- Alabama Argus.

Nay, speak no ill! a kindly word Can never leave a sting behind; And, oh, to breathe each tale we've heard Is far beneath a noble mind.

Full oft a better seed is sown
By choosing thus the kinder plan,
For if but little good be known,
Still let us speak the best we can. Give me the heart that fain would hide, Would fain another's faults efface; How can it pleasure human pride To prove humanity but base ! No; let us each a higher mode,

A nobler estimate of man; Be earnest in the search for good, And speak of all the best we can. Then speak no ill—but lenient be To other's failings as your own;

If you're the first a fault to see, Be not the first to make it known For life is but a passing day, No lip may tell how brief its span; Then, oh! the little time we stay Let's speak of all the best we can. President's Speech at Baltimore, Versified by Brow

"I thank you citizens-it gives me pleas-It's very gratifying, I confess,
'To see so many of the people out—
The cholera is lingering about—
(Although I'm not afraid of the disease—) And gathering such uncommon crowds as these-And being very anxious to keep off
The hem—I say the dis—(another cough)
I mean such dread—such gatherings as these;
(Although I'm not afraid of the disease)
Alight tend the epidemie to increase—
(Although I'm not afraid of the disease)

And if I thought that gatherings like these (Although I'm not afraid of the disease) Had caused the epidemic to increase (Although I'm not afraid of the disease) I shouldn't have another moment's peace." Catera desunt-Brown becoming "afraid of the disease !"-Boston Post.

"I say, landlord," said a fellow who was travelling out west, "I shan't pay you for my last night's lodg-ing, as you said I should sleep alone."
"Well, didn't you?" inquired the landlord.

"I rather guess you can afford to pay for the reckoning, then, as each one gave you his share of the bill."

thus furnishing suitable ingredients to absorb the urine of the cattle, will produce a large mass of manout of it. Mrs. Trembles, ma'am, I beg you to remain on this gallery.' oning, then, as each one gave you his share of the

below London, which were found to be occasioned by a whale floundering in the mud. As the tide receded the difficulty of the animal was increased. A number of persons were attracted to the spot, who attacked him with such weapons as were at hand, and they succeeded in securing him and bringing him to the wharf, where a handsome revenue was derived from exhibiting him at 6d. a sight. He was 58 feet in length and 38 feet girth, and was computed to weigh 30 tons.—English Paper.

muck and sods, and ploughing barn yards, &c.,—but their taces; there are many leisure hours when a few loads may be put into the hog-yard, and if you are fond of a good piece of pork, it must be gratifying to see how diligently the animals will labor in mixing the new mess with the old. Thus by a little labor and attention, two swine will manufacture twenty cart leads of good manure in one season, if properly supplied with materials. Dull weather, during hay time, cannot be spent to better advantage than in replenishing you."—St. Lottis Reveille.

Georgia is large. Among them, one of the best that we have seen operates after this fushion :

The ground is ploughed but once, and then deep-ly, with a two horse turning plough. It is isinglass, Savannah bottom, After ploughing, it is well harhundred more are in progress. All these are three Savannah bottom. After ploughing, the hundred more are in progress. All these are three rowed and planted by a drilling machine, in very and four story brick erections, much superior to those straight rows, six feet apart, with hills three feet in the row, and three stalks in the hill. A hand and a hoe goes into the field at all; and each mule tends A very interesting, and, to all appearance, a relia-

all the manure and vegetable matter produced by The annual expenses of the Royal family are esti- three large crops of oats, peas, and rye, in succession. \$10,000 more than the aggregate of the salaries of the ter, summer, and autumn feed, an extensive swamp President, Vice President, and five Heads of Depart- pasture and good crops of turnips, pumpkins, potaused at the coronation of the successive monarchs, ten cattle, sheep, and hogs, and mules for the plantato say, that the Dukes of Grafton, descended from an winter, and where teams are fed throughout the year,

From an interesting experiment tried by Mr. R. Iron Duke," the hero of Waterloo, has not been less Peters, of Atlanta, we have reason to believe that than £2,762,635, or nearly \$14,000,000. If what his relatives and dependents have received on his account, poor land than our Southern pea. We saw a field, more safe to take it calmly, infinitely more safe, be and at his solicitation, were added to this, the aggregate would be vastly greater.

There are many other items here, as illustrative as

There are many other items here, as illustrative as these, and as forcibly suggestive. We may recur to in and fertilize the poor soil, the former were scarcesome of them again. Meantime, let us bless God for ly six inches high, and quite small for their height.

of enriching poor lands is important. ESTABLISHING NEWSPAPERS.—That veteran of the In passing over the excellent farm of Mr. P. in Oothcaloga, we were particularly interested in the bosom, will exclaim, 'He was a good father, a firm limes, has some pertinent remarks in reference to appearance of a clover field of 28 acres. On one-half friend, and-and-a-rapid traveller!" the remarkable profuseness of new newspapers, of the of this a bushel of plaster to the acre was sown broadephemeral species. He says, "men engaged in such cast, early in the spring; on the other, nothing was the hour of eleven, I mixed, as usual, one spoonful of desperate enterprises, seem to think that editing and applied. The fourteen acres to which the fertilizer paregoric with two of water, and drank it off; after publishing come by nature, whereas they constitute was applied, presented as fine a stand of clover as

> salt put on, or in, each hill of corn; and also, with thermometer near the window. The mercury was plaster of paris, in a similar way. Most of his corn is very promising; and he has grown the finest crop warm and sickly season.

A good hog pasture, whether of clover, blue grass, or some other kind, we regard as a matter of much quainted with the subject might suppose. A rich, sweet potato pasture is the basis of this operation. They learned to love him as the interpreter than the quantity of flesh and fat, milk, butter, mence at the beginning.

been a form of wedded worship—a sacred mystery of spiritual oneness and communication. They did not continue. Curiosity triumphed over innocence. They animals, deserves the study of every farmer. The to bring on cramps, (for God's sake, Jenks, don't eat ged; man's heart and woman's heart are no longer whole process of digestion, assimilation, dissolution that apple; it gives me cholics to look at you.) Jenks, if ever—but no, you can't imagine be pleased to give any information respecting my case. ture is destined to become one of the most learned my feelings. My eyes became rivitted to his, my and honorable, as well as one of the most useful and knees knocked together like a couple of electrified inviting professions in this vast and rising republic. balls, and my hair stood like so many needles. Fegs To the industry, talents, and research of medical men it would have made a picture for Raphael. Thus it owes much; and to our brethren of the Healing sat for a few seconds, when suddenly the bed-post

> pated deficiency in our grain and potato crops, ought certainly to put the farmer to thinking how he may best prevent such deficiencies in future years. All practical and scientific farmers know full well that plenty of manure in agricultural pursuits, produces ly, and again I heard the call, 'Trembles!'

There are many ways of increasing the quantity of manure on most of farms by carting into the barn-yard, and hog-yards, various materials, otherwise, almost worthless, such as muck, turf, loam, weeds, &c., bolted precipitately among them, "Gracious! what's all which should be occasionally mixed up with the the matter with you! Has anything happened! "Thunder and lightning! I had more than a thousand musquitoes for room mates, and each one had a
dab at me."

dab at me." may probably double the quantity of manure, and by the room is so confoundedly hot. I was beginning to usual noise and appearance were heard in the Thames, near a place called Gray's wharf, some thirty miles below London, which were found to be occasioned by muck and sods, and ploughing barn yards, &c.,—but "I endeavored to look composed, but it didn't succeed. A suppressed titter passed around the circle. The company held their handkerchiefs to their faces;

your yards with ingredients for manure, and maxing them by frequent ploughing. Soep suds is a great fertilizer, and it would well pay the labor of saving it on washing days, and putting it into your manure, or on plants in the garden. It would be good economy to have a large hogshead or tub set in the ground in the garden to receive all the suds made by washing and use it in watering the vegetables growing in your vards with ingredients for manure, and maxing the garden. Although this may seem small business to some, yet let such remember that the world is made up of small atoms, when viewed separately. The intrious farmer by paying proper attention to the making of manure, may have some to spare for top dressing his mowing grounds, which will prove of great utility in renovating his grass field, which doubtless will suffer much from drought the present quantity and quality of his hay for the ensuing year.
We should think the merchant was very improvident and careless in his business, who neglected to sell small articles, and to collect small debts; but the farmer who neglects such small means to improve the fertility of his farm, is, in fact, just as improvident

WET LAND .- This is an excellent time to ditch and drain, and you should improve it. Cart the dirt ex-cavated from open ditches into your cow yard, to be there manufactured into good manure, each cart load of which, next spring, will be worth equally as much as the same quantity of stable dung.

A NEW WAY TO CURE BACON.—A correspondent of the Nashville Whig has the following recipe:

" As soon as the meat is salted to your taste, which will generally be in about five weeks, take it out, and, if any of it has been covered with brine, let it drain in the Spring your bacon is so well cured or dried on the outside that flies or bugs will not disturb it."

Tribulations of a Nervous Man in Cholera Times. "Try and look the danger boldly in the face," sai

my friend encouragingly to me the other day. 'It's perfectly useless," I replied; "I've already tried it again and again, sir, and it never fails to bring on the most alarming and violent symptoms. I tell you, Mr. Jenks, as long as the cholera remains in town, sir, Trembles will remain a very sick man.— Oh, it's no new thing, the idea of gleaning courage from familiarizing one's self with the danger. It's one of my favorite experiments. Frequently, in the solitude of my own chamber, I have advanced one foot resolutely forward, sir. I have given my head a what's the matter with you! Surely you're not afraid of cholera! No, I trust not. I would be sorry, very sorry, my good friend, to see you so readily give way ble friend of a numerous circle of acquaintances: wing your flight. Peter Trembles, like the estimable Every fact that throws light on the art or science citizen, who-who-asks no favors and shrinks from no responsibilities, and your friends who, from a distance, will contemplate you nestling in Abraham's and Lamp Oil

every year, making them poorer, instead of increasing the fertility of our fields, or the quality of our "Which one!" cried I. " All four of 'em !" said the voice. " No, I'll be ___ if I do,' I shouted, as I bounded towards the door, and rushed out on the porch. "Why, Mr. Trembles," exclaimed the ladies, as

give it. I was elected Harbor Master for the Port of Wilmington, in the year 1848; -the Commissioners of Navigation (to whom the appointing power belongs) are elected every IC FLUID is used with the most perfect and certain success in GENERAL DEBILITY, strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in Fits, Cramp, Paralysis and Palsy, Dyspersia or Indigestion, Rheumatsm, Acute and Chronic, Rheumatsm, Acute and Chronic, Temporary Palantesian, Paralysis and Palantesian, Paralysis and Palantesian, Paralysis and Palantesian, Paralysis and Palantesian, Pala doubtless will suffer much from drought the present year by the people; during the meeting of the Legislature, year, and in this way he may do much to increase the in the winter of 48-49, the law was so altered as to make the day of election of said Commissioners come on the first Monday of May, instead of the first day, for the purpose of sia or Indigestion, Kheumatism, Acute and Chronic, Gout, Epilepsy, Lumbago, Deafness, Nervous Tremors, Palpitation of the Heart, Apoplexy, Neuralgia, Pains in the Side and Chest, Liver Complaint, Spinal Complaint, and Curvature of the Spine, Hip Complaint, Diseases of the Kidneys, Deficiency of Nervous and Physical Energy, and all Nervous Diseases, which complaints arise from one simple cause—namely, a avoiding the consequence of its coming, at some time, on the Sabbath. From negligence or inadvertency, the new law had escaped the observation of the people, and the old day, the first of May, was the day on which the election was holden, instead of the first Monday, as the law requires .- There was derangement of the Nervous System.

In Nervous Complaints, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity, and vices. some excitement and much industry displayed on the said day of election, which resulted in the success of the ticket which follows, viz:—B. FLANNER, D. McMillan, Jno. A. Taylor, Edward Kidder, and O. G. Parsley, who at once assumed the consequence and importance which should belong to a body so respectable; but, alas, for the glory of their new dignity, in an evil moment, (although they had months to consider the matter,) they took it into their wise heads to turn out the incumbent and put another man in, whose circumstances and business were such that he did not require the salary, nor could he attend to the duties of the office. I will here take occasion GALVANIC CURATIVES, consist, in the fact that they arrest and cure disease by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in to say, that, although the appointing power rests with the Commissioners of Navigation for their officers, yet there is no time prescribed, by law, for such appointments, the natural inference is, that the election is good during good behavior—or an impeachment. For the establishment of these facts, the United States, only three years since, more than 60,000 persons, including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subprecedents are numerous, and within the memory of many of our citizens. At this time, it is notorious in our community, ject to Nervous complaints, have been ENTIRELY AND PERMA-NENTLY CURED, when all hope of relief had been given up, and everything else been tried in vain! that there are no legal Commissioners of Navigation JNO. S. JAMES. Wilmington, N. C., Nov. 9th, 1849.

pect to Nervous complaints, have been entirely and permaneral perm ed in selling it as the original Dr. Townsend's Sarsaparilla.
Dr. S. P. Townsend was the original proprietor and inventor
of Dr. Townsend's Sarsaparilla, and his medicine has gained
a reputation that no other remedy ever gained. He manufactured over one million of bottles the last year, and is manufacturing at present 5,000 bottles per day. We use more Sarsaparilla and Yellow Dock in our establishment each day than all the other Sarsaparilla manufacturers in the world Principal office, 126 Fulton Street.

READ THE AFFIDAVIT. City and County of New York, ss.
William Armstrong of said city being duly sworn, doth depose and say that he is a practical Druggist and Chemist. That some time in the latter part of May, or first of June, 1848, a man by the name of Jacob Townsend, who at that time was a book and pamphlet pedlar, called upon deponent at the house of Mr. Thompson, No. 42 Hudson street, where deponent boarded, and requested deponent to write him a recipe by which to make a Syrup of Sarsaparilla. Deponent further says, that he became acquainted with said Townsend at the office of Theodore Foster, Esq., book publisher, with whom said Townsend dealt. That said Townsend had had frequent conversations with deponent respecting the manufac-ture of an article of Sarsaparilla to be sold under the name of

Dr. Jacob Townsend. That said Townsend stated he was an old man and poor, and was not fit for hard labor, and wished to make some mo what has been the result in my own case, of the application of ney in order to live easy in his old days, and that if Sarsaparilla, under the name of Townsend, sold so well, and so much money was made by it, he could see no reason why he might not make something out of it too, (his name being Townsend,) if he could get a capable person to prepare a recipe and manufacture it for him. Deponent, in one of the conversations, asked said Townsend if he was related to Dr. S. P. Townsend; my physicians sometimes afforded me great relief; but this red to defend himself against any attack that might be made relief was only temporary. Farther: in the winter of '45 and on him.

relief was only temporary. Farther: in the winter of '45 and on him.

'46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Jacob Townsend, he wrote a recipe for the manufacture of a Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system was now thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with also told deponent that the bottles they were to use were to tion—thus evincing that these disorders were connected with also told deponent that the bottles they were to use were to each other through the medium of the Nervous system. My be of the same size and shape as Dr. S. P.'s; and deponent, at sufferings were indeed severe, and I had no prospect other the request of said Jacob Townsend, went to the office of Dr than being entirely laid aside from the discharge of those du-ties, and the performance of those labors in which my soul has

S. P. and procured one of his labels.

And deponent further says that he And deponent further says that he has been informed, and

verily believes, the Syrup of Sarsaparilla sold as Old Dr. Ja-cob Townsend's, is made after the recipe furnished by depo-Nervous System must be reached before any hope could be nent to Jacob Townsend, as aforesaid. And further deponent said not. WILLIAM ARMSTRONG Sworn to before me, this 24th day of May, 1849,

indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopæia there seemed to be no C. S. WOODHULL, Mayor of the city of N. Y For sale in Wilmington, N. C., by WM. H. LIPPITT, Druggist and Chemist.

SARSAPARITES IN QUART BOTTLES Blood CURE OF AND FOR THE LIVER COMPLAINT SCROFULA RHEUMATISM BRONCHITIS STUBBORN ULCERS CONSUMPTION FEMALE COMPLAINTS DYSPEPSIA LOSS OF APPETITE SALT RHEUM FEVER SORES DEBILITY & &

> In this preparation are strongly concentrated all the Medicinal properties of Sarsaparilla, combined with the most effectual simples of the vegetable kingdom; and it has been so fully tested, not only by patients themselves, but also by Physicians, that it has received their unqualified recommendations and the approbation of the public; and has established on its own merits a reputation for time past; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and infuses new throughout the whole animal frame. The diseases for which this article is recommended are those to which it is known

> rom personal experience to be adapted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the Sarsaparilla is adapted, but experience proves its value, and each succeeding day is adding new trophics to its fame. REMARKABLE CURE OF BRONCHITIS.

Messrs. Sanns:—Having suffered many years with a disease of my throat, affecting the larynx, during which time I was treated by the most distinguished physicians in Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress: caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the largefor producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your valuable Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla I did not place much confidence in its virtues; and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity to give you this attention of my contract table. but cured me; and I therefore think it my duty, gentlement, humanity, to give you this attestation of my cure. Yours very truly, D. PARENT.

The above statement and signature were acknowledged in our presence by Mr. D. arent as true.

For the Consul-general of France, Parent as true. New York, Feb. 17, 1848.

CANCEROUS ULCER PERMANENTLY CURED. LET THE FACTS SPEAK FOR THEMSELVES.—The following striking, and, as will be seen, permanent cure of an inveterate Cancer, is only another link in the great chain of testimony to its merits. Let the afflicted read and be convinced. What it has

Messrs. A. B. & D. Sanns :- Gentlemen-In the year 1842 I was attacked with a

Messrs. A. B. & D. Sands:—Gentlemen—In the year 1842 I was attacked with a cancer in my neck, which soon extended its ravages over the side of my face, eating the flesh, and leaving the cords of my neck bare, discharging very freely, causing intense pain and suffering, depriving me of rest at night and confort by day, destroying my appetite, and reducing me almost to the gates of death. I was attended by the first physicians in the state, who prescribed for me, and did all that skill and talent could effect, but during all the time I continued to grow worse under their care. In the Spring of 1844 I chanced to hear of the cures performed by your Sarsaparilia, and determined to try it. I had not used over two bottles before I feit its effects on my system most sensibly. My appetite was soon restored, my strength was increasing, the discharge from the cancer decreased, and I soon began to perceive that the flesh was healing. I continued its use according to directions, and also continued to grow better and better from day to day, until I have been fully and wholly cured by its use. It is now two years since I was cured, and I have remained perfectly well up to this day. I have delayed giving you this certificate, that I might ascertain whether the disease would reappear; but I am happy and most thankful to again repeat that the cure is a perfect one, and effected wholly by the use of your Sarsaparilia. The scars sti? remain; and all who know me, and many of the citizens of Stamford, can testify to the severity of my case and my sufferings, and the health-restoring power of your Sarsaparilia. I can with unhesitating confidence recommend its use to every sufferer afflicted with similar complaints. After experiencing what I have from its effects, I can say to one and all, "Hesitate and doubt no longer, but secure to yourselves the health-giving virtue this medicine can alone bestow."

Most gratefully I am, and shall always remain, your friend, ISAAC STEVENS.

TESTIMONY FROM EUROPE. Legation United States, Berlin, Prussia, April 8, 1846.

Messrs. A. B. & D. Sands:—Gentlemen—Having seen your Sarsaparilla used in this city with great effect in a severe case of Scrorula, I have been requested to order three dozen bottles, which please send, on the payment of the enclosed draft on Messrs. Henschon & Unkhart, with the least possible delay. I am inspired only by a feeling of philanthropy, in begging you to publish this unasked testimony to the value of a medicine which, widely as it is known, is not known as it ought to be.

I am, Gentlemen, respectfully yours, &c. THEODORE S. PAY.
